## FROM DAY TO DAY

ART.

We praise the art of an age gone by. And so do the art of our own.

To be worshipped as good a man must die.

Unheard of his age, unknown.

We lead the products of poets which

Dark centuries died in trust;

And now for the standard of future years

The musician who sleeps in dust.

Let us praise the men who deserve our praise.

Give each one his lawful wage.

Whether he toiled in the good old days

Or in this bright, golden age.

All glory to art of the years gone past.

All glory to years to come;

But let us acknowledge our own art.

Art is taken and perish dumb.

—Katherine A. Clark.

## HOLIDAY DECORATIONS.

Some houses in Edmonton have been so charmingly decorated for the holiday season that it is to be hoped that

the rest of the city will be in haste to

emulate the efforts of the few who have

been so successful in their efforts.

There is no doubt that the decorations

made up of the English homes and

the decorations of the English homes

are in the tradition that the decorations

All Fur Coats 15 per cent. Discount.

All Cloth Overcoats 20 per cent. Discount.

## Crystal Palace Clothing Emporium

### News of the District

From Bulletin Correspondents.

A very successful concert was given in Craig hall last evening in aid of the English Church. The hall was well filled and as a happy change from the last two or three concerts, was comfortably warm.

The following programme was well received, each item meeting with much applause:

1. Chorus—The Maple Leaf—The Choir.
2. Recitation—Shakespeare—Mrs. Chas. Pilke.
3. Vocal Solo—Juanita—Mrs. Dr. Wink.
4. Vocal Duet—Back to the mountain—(1) Trevelyan—Mrs. Pilke and Mrs. Eason.
5. Tableau.
6. Instrumental Solo—Carole McNeill.
7. Recitation—The Bad Little Boy—Miss Dorothy Thompson.
8. Vocal Duet—Alone Where Art Thou—Mr. W. C. Craig and Mrs. Pilke.
9. Song—Wont You Buy My Pretty Flowers—Mrs. W. C. Wood.
10. Instrumental section—Vermilion Rag Time—Messrs. Eckhart, West and Pilke.
11. Comic song—Tut Tut—Mr. R. Wilson Taylor.
12. Comic Song—Travelling—Mr. A. E. Pilke.
13. Reading—The Charity Dinner—Mr. W. P. H. Thompson.
14. Grand Finale—Great Britain and Her Colonies.

"God Save the King."

It would be hard to point to any one of these items and say that it was the best. The tableaux, under the able direction of Mrs. Woodhouse, were a successful innovation. The duet from "I Trevelyan" sung by Mrs. Pilke and Mrs. Eason was loudly cheered, as was "Alone Where Art Thou" by Mr. Craig and Mrs. Pilke.

The Grand Finale as a closing item fairly brought down the house. Britishers appeared roused on a pedestal and surrounded by representatives from

each colony in the costumes of the several countries.

Mr. and Mrs. Harry Bowtell have left for a short visit to Liverpool.

Mr. James Holden, M.P. is in town today, renewing old acquaintances.

The skating rink is now completed and it is hoped that it will be opened for use tomorrow evening.

The weather continues extremely cold and the shortage of coal is again making itself felt. The chief difficulty seems to lay with the C.N.R. as we believe that some cars have been on the way for several days, but have got stuck in some place between here and Edmonton.

Mr. McClellan has taken over the bakery and confectionery business lately conducted by Messrs. Every & Harvey.

Sumo has it that the Rev. W. E. Gilbert, English Church minister here, intends entering the house of matrimony early this month. It is certain

that he will carry with him the good wishes of Vermilion should this prove correct.

#### A HOUSE OF CONCRETE

The mansion of John H. Osborne, of Auburn, N. Y., is one of its most remarkable dwellings in the world, says the Architectural Record. The house is of reinforced concrete throughout, and could not be burned up nor probably blown up by other than a very exceptional charge of high explosives. The structure is of an Elizabethan type with battlemented walls, only the dwelling "piazza" is concrete platform, with a double roof of glass and metal beams on brackets—relating its terrace aspect. The walls from top to bottom are 20 inches thick, this including, however, above the foundation a four-inch air space. These upper walls

consist of four inches of Canadian gray brick on the exterior, then eight inches of building blocks, then the four inch air space—sealed in winter by a inch of steam pipe—with a four inch brick wall. The whole interior structure is supported by concrete columns, that rise from cellar to roof, supporting the floor platform. The roof, which is flat, is covered with asphalt tiles laid on five inches of asphalt felt, will envelop with asphalt between the house and the battlemented walls, only the dwelling "piazza" is concrete platform, with a double roof of glass and metal beams on brackets—relating its terrace aspect. The walls from top to bottom are 20 inches thick, this including, however, above the foundation a four-inch air space. These upper walls

and door frames and the wainscoting of the dining room and lower floor. On that floor the wood is mahogany. The brick of the exterior walls is relieved by stone and especially ornamental bits of "made" stone, the whole house forming an enduring mile post in the modern use of concrete.

## No Easier Way to Make Money Than by Wearing ARLINGTON RUBBER COLLARS AND CUFFS

### NO LAUNDRY BILLS

It would be possible to surprise you if you were to count up how much money you pay the laundry in a year. Arlington Rubber Collar and Cuffs save all laundry bills, as they as they are kept constantly clean by wiping with a damp cloth.

### EVERY STYLE AND SIZE

Arlington Collars and Cuffs are sold in every style and size known to the trade.

### BE COMFORTABLE

You will feel comfortable all the time if you are wearing an Arlington Rubber Collar. No saw edges, no wilting or broken corners, no broken button holes. You have experienced all the above troubles. Why not avoid them by wearing an Arlington?

### WHERE TO BUY THE ARLINGTON

All first-class men's furnishing and dry goods stores handle Arlington Collars and Cuffs.

You cannot tell a dull finished Arlington collar from the finest linen article. An Arlington Collar costs you 25c, a little more than a linen collar, and they will outlast ten of the latter. Five times as many Arlington Collars and Cuffs are being worn today than there were six months ago, and the demand is steadily increasing, all due to the fact that the Arlington fills a long felt want. They are not an experiment but a tried and true article. Barbers, Merchants, Trainers, Mortormen, Ministers, Lawyers, and, in fact, all classes of men are saving money, and have found comfort by wearing them. Why not you? Ask your dealer to show you one.

## WHOLESALE ONLY

# THE ARLINGTON COMPANY, Toronto.

# The Western Railway Road

Four Roads Struggling for Supremacy in Prairie Provinces

Winnipeg, December 29.—In looking over the wonderful amount of railway construction in western Canada during the year which is just closing it is clear there is conclusive evidence from the confidence of the railway companies, that the progress and future of the west will be phenomenal.

Today there is more than 3,000 miles of railway under contract in the prairie province, between the Great Lakes and the Rocky Mountains, and the greater part of it already under construction and nearing completion. The amount under contract for the various companies is as follows: Canadian Pacific, 1,400 miles; Canadian Northern, 1,200 miles; Grand Trunk Pacific, 1,000 miles; and the Great Northern, better known as the Hill system, 1,000 miles. The three latter of these roads are virtually engaged in a remarkable race in construction, each endeavoring to be first to connect Winnipeg and the Pacific coast with the steel bond.

## LOOKING TOWARD HUDSON BAY

Another point towards which all four roads are turning is Fort Churchill, on Hudson Bay, which will, in the near future, have the largest grain elevator in the world and will be possibly the largest shipping point in Canada. The great advantage of the Hudson Bay route over the present route by Fort William is that the former route is nearly one thousand miles shorter, and the grain will only be handled once.

For a number of years past the C.P.R. has developed a great deal of labor and expense in straightening the prairie section of the road and reducing the grades. This work was made compulsory by the competition which has been brought about by the building of the C.N.R. Another work of the C.P.R., which the growth of the west has demanded, is a double track from Winnipeg to Fort William. Already 100 miles of this double track is in commission, and by the end of another year there will be a double track much straighter than the old one, and with lighter grades over which the wheat will be rushed to the lake ports. It has been suggested by C.P.R. officials that there will be a double track from Winnipeg to Brandon in the near future, but for the west, that there are so many different branches of this line that it will never be a profitable work to double track the whole line.

able work to double track the whole line under construction from Saskatoon to Wetaskiwin, on the Calgary-Edmonton line, and another from Moosejaw to Lacombe, on the same line.

## C.N.R. HAS AMBITIOUS PLANS

The Canadian Northern, which is now running a regular schedule of freight and passenger trains from Winnipeg to Edmonton, is also contemplating building operations under way. They have taken over the C. P. R. line from Regina to Prince Albert this month, and have now, under course of construction, a line from Prince Albert to Fort Minto, which is the first effort towards the Hudson Bay route. West and north from Edmonton, the C. N. R. is making its way, and already a petition has been laid before the government at Ottawa to allow them to cross the mountains at the Yellow Head Pass, where the G.T.P. will also cross. There will be a race to the Pacific coast between these two roads.

The Grand Trunk Pacific, Canada's only national highway, has the line from Winnipeg to Edmonton nearly all graded, and is laying the steel as fast as possible. It has been greatly impeded in their bridge construction by the lack of timber from the British Columbia mills, and there has also been some delay in the supply of rails. The G.T.P. line from Winnipeg to Fort William is all under construction, and the steel is being laid so that it looks as though the company will make good the record of having their line to the lakes ready to handle at least a part of the wheat crop of 1907.

## THE GREAT HILL SYSTEM

The last, but far from the least, of the great railway corporations which is entering the Canadian wheat lands is the Great Hill system. Already this company has eleven lines to the Canadian border, of which six of them have crossed over. Many eastern railway men fear that the entrance of the line from the north will mean the diversion of the wheat trade to the American ports, to the detriment of St. John and Halifax, and other eastern ports. Mr. Hill, however, has said that he would ship both ways, and that there was plenty of trade for both sides of the line. From the line he has purchased it appears that the Hill line will run from Fernie, B. C., to Medicine Hat, Alberta, and thence to Winnipeg. From Fernie to the coast he will purchase short lines and build the connections to have a direct line from the coast to the lakes.

On a generally warm day, Fall wheat was being plowed with the side-ditching plow, which showed all the good seed. The plow was in good order since the harvest and the plow was in good order since the harvest and the plow was in good order since the harvest.

THE SCARCITY OF LABOR  
The scarcity of labor has had some effect upon the work of railway extension. The new Grand Trunk Pacific line is being pushed with all possible speed, and all available men have been working on it. The work is being done in the winter months, and the men are working in the open air. The Canadian Northern is also pushing its line from Winnipeg to Fort William, and the Grand Trunk Pacific is pushing its line from Winnipeg to Fort William.

# Canada's Prosperity Greater in 1906 than Ever Before

Montreal Star.—A year ago it was thought that the prosperity of Canada had been reached. It had been taken twelve months to prove that this view was incorrect and the year with a steady growth in population and an increasing number of immigrants in all directions at home and abroad, a still greater share of prosperity had fallen to the lot of all classes of this country's inhabitants.

The fortunes of Canada have had a splendid year, the country's mines have produced riches and could not be surpassed, and the output of products of the forest and of the sea compares favorably with that of previous years. The production of wheat and other grains has been the highest in the history of the country. The wheat crop will show an increase of about 10 per cent over the last year. Prices were fairly high. The grain was sold at a high price. The wheat was sold at a high price. The wheat was sold at a high price.

One of the most satisfactory features of Canadian trade is that of foreign business doing in the fact that foreign exports are not down until four or five months after the date of export. It is in fact a very favorable feature covering the latter part of the year, but the report for the final year, which extended half way into 1906, gives a very good indication as to how trade moved, particularly in the west. It is well known that trade in the latter part of this year showed no signs of falling off. The total for the final year was by far the highest in the country's history, amounting to \$1,000,000,000. The total for the final year was by far the highest in the country's history, amounting to \$1,000,000,000. The total for the final year was by far the highest in the country's history, amounting to \$1,000,000,000.

PROSPERITY DUE TO GROWTH OF WEST  
Canada's present prosperity largely

due to the rapid growth of the western country. The enrichment of the farmer by the high prices for a great variety of products, and the rapid filling of the country by immigrants, the population has been increased during the last year by well over 100,000 immigrants from Great Britain, the United States and the continent of Europe. The major portion of these have taken up land in the west and taken in the new portions of western Canada, but it is in the west that this immigration has most affected the country's advance. The British and American immigration has been a high average of quality for that of the whole year. The western cattle trade has been a most successful one. The cattle were well finished and shipments were made in great numbers. The cattle were well finished and shipments were made in great numbers.

The revival in the lumbering and mining industries along the Pacific coast, made the year the most remarkable in the history of that part of the country. The lumber mills have been in full operation, and the mining industry has been in full operation. The lumber mills have been in full operation, and the mining industry has been in full operation.

DAIRY SEASON EXTRAORDINARY  
Generally speaking conditions in Ontario and the other older parts of the country have been but little different from those prevailing further west.

## No Dull Times Here
